Product Description

Smart #1 pure electric SUV, with a range of 400KM-560KM, a very beautiful electric car.Suitable for cities

The 2024 Smart #1 continues the design of the previous model with triangular headlights, through-type taillights, suspended roof design, hidden door handles, and frameless doors. The size remains the same, measuring 4270/1822/1636mm, with a 2750mm wheelbase .

Furthermore, the new car offers a variety of exterior color combinations in gold, black, white, gray, etc.

The interior layout remains unchanged with a symmetrical T-shaped design. There is a 12.8-inch central control screen that comes with a built-in Qualcomm Snapdragon 8155 chip. In front of the flat-bottom steering wheel is a 9.2-inch LCD instrument panel. Under the cover of the center console is a wireless charging panel for mobile phones and two cupholders. In addition, the new car comes standard with a level 2 advanced driving assistance system, OTA updates, Bluetooth, electronically adjustable second-row seats, and a power trunk.

The standard trunk volume is 323L, which can be expanded to a maximum of 986L after the rear seats are folded down.

The 2024 Smart #1 is equipped with a rear single motor that outputs 200 kW and 343 Nm. Its 0 – 100 km/h acceleration time is 6.7 seconds. In addition, both the Pro+ and Premium models are powered by a 66 kWh ternary lithium battery pack. The Pro+ has a 535 km CLTC pure electric cruising range while the Premium has a 560 km CLTC pure electric cruising range. Under fast charging, it only takes 30 minutes to charge from 30% to 80%, while slowing charging takes 7.5 hours.
